Mr. Jeremy Corbyn
Former British Labor Party leader

The House of Representatives of the Republic of Yemen expresses its sincere thanks and appreciation to your honorable person for your humanitarian stances and courage in your opposition towards the war on Yemen and for what you have recently done with the US Senator Bernie Sanders in calling for the establishment of the global event through a coalition (Stop the International War), which was represented in the launching of protests around the world on Monday, January 25th, 2021, against the continuation of the war on Yemen, and to consider this day an international day to stop the war on Yemen. A number of countries participated in these protests in support of the Yemeni people and their opposition to the aggressive war on Yemen led by Saudi Arabia and the UAE, with great political and military support from America, Britain and other European countries for 6 years till now causing the death and injury of tens of thousands of Yemeni citizens, most of them were children, women and the elderly, destroying the Yemeni infrastructure and all of Yemen's capabilities, imposing a land, sea and air blockade on Yemen that prevented the entry of food, medicine, oil derivatives and other requirements for life, accordingly the Yemeni people have become the biggest humanitarian disaster in the world. In addition, the closure of Sana'a airport also caused the death of tens of thousands of patients who were unable to go out for treatment outside Yemen.
